

LIFE SCOPE® SVM-7200 SERIES VITAL SIGNS MONITOR

NK-HEALTHPROTECT™ PATIENT TRIAGE SOLUTION

Note: Optional equipment shown

Triaging is critical during the COVID-19 pandemic.

The Life Scope® SVM-7200 Series vital signs monitor offers fast, easy and simple triaging of potentially contagious patients. Offered as part of our NK-HealthProtect Patient Triage Solution, you get everything you need to start triaging patients with the SVM-7200 Series vital sign monitor right away.

Medicare-participating hospitals and critical access hospitals that have a dedicated emergency department are required by the Emergency Medical Treatment and Labor Act to provide a medical screening to every individual who comes to the emergency department for a medical condition.¹ Overcrowded EDs can increase the risk of exposure and transmission, and compromise access for patients with severe COVID-19 illness or other acute medical illnesses.² In these demanding times, it is imperative to triage quickly and effectively with the latest technology--the new Life Scope SVM-7200 vital signs monitor.

Fast

- Quickly screen patients using temporal forehead temperature scan
- Easily configure modified early warning scoring to fit your hospital's MEWS protocol. MEWS can be designed to help with early detection
- Measure non-invasive blood pressure quickly using inflation-based technology

Easy

- Easily clean and disinfect your monitor with any disinfection solution that's used by your organization
- Avoid cross contamination with disposable SpO₂ sensors for patients at high risk for COVID-19*
- Intuitive user interface with touch screen

Simple

- Every kit comes complete with all accessories and is ready to use right out of the box
- Our subscription plans allow you immediate access to equipment without a capital expenditure
- Roll stand requires minimal assembly

* Additional disposable SpO₂ sensors and blood pressure cuffs sold separately

LIFE SCOPE® SVM-7200 SERIES VITAL SIGNS MONITOR NK-HEALTHPROTECT™ PATIENT TRIAGE SOLUTION

One kit includes everything you need to start triaging right away:

- Life Scope SVM-7200 Series vital signs monitor
- Battery for up to 6 hours of use
- Built-in recorder with thermal paper
- Exergen temporal thermometer and box of disposable caps
- Roll stand with cable management bracket and basket
- Choice of Nihon Kohden, Nellcor®, or Masimo® SpO₂ technology and includes sensor starter kit
- 1 Nihon Kohden blood pressure hose
- 1 each of Nihon Kohden's reusable child, adult, and large adult blood pressure cuffs
- Power cord

Each monitor and accessories will be delivered in a hard-shell case to keep the product and accessories protected and allow for easy storing.
